MIFID II product governance / Retail investors, professional investors and Eligible Counterparties – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. The product is incompatible for any client outside the positive target market identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

B.19/B.4b	Trend information	The year 2019 was characterized by a high degree of uncertainty. There have been many political and geopolitical uncertainties: trade war between China and the United States, no agreement on Brexit and a political imbroglio in the United Kingdom, slowdown in China, European elections and rise of populism, the Iran-U.S. crisis. These uncertainties had a significant impact on the global growth trajectory and, led by the summer 2019 to a marked downward revision of the growth outlook for 2019-2020. And while activity in services continued to grow, it slowed significantly throughout the year. By the way, the economic slowdown combined with relative weakness in oil prices has kept inflation to low to very low levels. In the front of slowing growth, persistent risks and low inflation, central banks have been resolutely accommodative in 2019, impacting the dynamics of interest rate curves and geographic spreads and also influencing notably the foreign exchange market.

Insolvency proceedings may have a material adverse effect on the Issuer's business and assets and its obligations under the Notes as Issuer. The significant risks relating to NATIXIS include: The significant risks relating to the macroeconomic environment and financial crisis include: • adverse market or economic conditions may cause a decrease in the net banking income, profitability and financial position of NATIXIS;

Such a situation could give rise to significant losses.
D.3 / D.6	Key risks regarding the Notes / Risk Warning	The key risks regarding the Notes include: • By investing in the Notes, investors must rely on the creditworthiness of the relevant Issuer (and in the case of

		Notes issued by Natixis Structured Issuance SA with the benefit of the NATIXIS Guarantee, NATIXIS) and no other person. • Conflicts of interest may arise between the Issuers and any of their affiliates, on the one hand, and noteholders, on the other. • Certain of the Dealers and their affiliates have engaged, and in the future may engage, in investment banking, commercial and/or lending transactions with the Issuer and/or the Guarantor and their affiliates, which may result in consequences that are adverse to an investment in the Notes. • The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes. • A noteholder's effective yield on the Notes may be diminished by the tax impact on that noteholder of its investment in the Notes. • The conditions of the Notes contain provisions for calling meetings of noteholders which permit defined majorities to bind all noteholders who did not attend the and vote at the relevant meeting as well as noteholders who voted in a manner contrary to the majority. • The Notes are governed by English law, in effect as at the date of this Base Prospectus and no assurance can be given as to the impact of any possible judicial decision or change to English (or any other relevant) law after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it. • Under the terms of the Notes, the Issuer is obliged to make payments of principal and interest free and clear of Luxembourg withholding taxes only. To the extent that withholding tax is imposed on payments of principal and interest under the Notes in any jurisdiction other than Luxembourg noteholders will receive payment only after imposition of any applicable withholding tax. • U.S dividend equivalent withholding may affect payments on the Notes. • The proposed financial transactions tax (**FTT**) would impose FTT on each financial institution that is party to certain financial transactions. A person transacting with a financial institution which fails to account for FTT would be jointly and severally liable for that tax. • The implementation of the Banking Resolution and Recovery Directive (the **BRRD**) and its incorporation into French law and Luxembourg Law, or the taking of any

		action under it, could materially affect that value of any Notes. • Among other measures under the BRRD, resolution authorities have the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Notes) to equity, such equity being potentially subject to future cancellation, transfer or dilution by application of the general bail-in tool. The resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. Only if this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings. • French credit institutions (such as NATIXIS) must comply at all times with minimum requirements for own funds and eligible liabilities (the **MREL**) under Article L.613-44 of the French Code monétaire et financier. The MREL is expressed as a percentage of total liabilities and equity of the institution and aims to prevent institutions to structure their commitments in a manner which could limit or prevent the effectiveness of the bail-in tools. • The BRRD was implemented by the Luxembourg act dated 18 December 2015 (the **BRR Act 2015**). Natixis Structured Issuance SA, as a credit institution established in Luxembourg and a subsidiary indirectly owned 100% by NATIXIS, is subject to the BRRD as implemented by the BRR Act 2015. • The Benchmark Regulation could result in an adjustment to the terms and conditions of the Notes, early settlement, valuation by the Calculation Agent, delisting or other consequences, depending on the specific provisions of the relevant terms and conditions applicable to the Notes. • Green bonds/Social bonds – There is currently no market consensus on what precise attributes are required for a particular asset to be defined as "green", "social" or "sustainable" and therefore no assurance can be provided to investors that the eligible assets will satisfy, whether in whole or in part, any present or future investor's expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. • Unforeseen events can interrupt the Issuer's operations and cause substantial losses and additional costs.

		• The Issuer is exposed to credit risks of other parties. • An interruption in or breach of the Issuer's information systems may result in lost business and other losses. • It may not be possible for investors to effect service of process on the Issuer, its directors and executive officers within the United States or to enforce against any of them in the United States courts judgments obtained in United States courts. **Structured Notes** • the market price of the Notes may be volatile; • the Notes may receive no interest; • payment of principal or interest may occur at a different time or in a different currency than expected; • investors in the Notes may lose all or a substantial portion of their principal; • the underlying of the Notes may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; • the timing of changes in an underlying of the Notes may affect the actual yield to investors, even if the average level is consistent with their expectations; and • neither the current nor the historical value of the underlying of the Notes may provide a reliable indication of its future performance during the term of any Note. **Natixis Structured Issuance SA may be substituted as principal debtor by another entity** • In respect of the Notes issued by Natixis Structured Issuance SA only, or any previous substituted company, the Issuer may, without the consent of noteholders, substitute for itself as principal debtor under the Notes any company (the Substitute) that is an Affiliate of the Issuer, or an Affiliate of any previous substituted company, subject to the conditions set out in the Terms and Conditions of the Notes. Despite a substitution in accordance with Condition 15 (Substitution (applicable to Natixis Structured Issuance SA only)) of the Terms and Conditions of the English Law Notes being subject to satisfaction of the Substitution Conditions set out therein, noteholders may, following a substitution, become subject to increased credit risk in relation to the Substitute and/or may suffer adverse consequences in relation to the market value, trading market or liquidity of their Notes. **Index Linked Notes**

		Exposure to one or more indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Notes. Key Risks relating to the NATIXIS Guarantee • The scope of the NATIXIS Guarantee is limited to Financial Instruments (as defined in the NATIXIS Guarantee) of Natixis Structured Issuance SA. The NATIXIS Guarantee is not limited to Natixis Structured Issuance SA's obligations under Notes issued by it under the Programme. • The NATIXIS Guarantee is not a 'first demand' guarantee. Any claim under the NATIXIS Guarantee must be sent in writing by a duly authorised officer of the claimant to Natixis Structured Issuance SA in accordance with the NATIXIS Guarantee. • A revocation of the NATIXIS Guarantee could affect the creditworthiness of Natixis Structured Issuance SA. • Noteholders are also exposed to NATIXIS's credit risk under the NATIXIS Guarantee. • The NATIXIS Guarantee is governed by French law and enforcing rights under it may be more difficult than enforcing a Luxembourg law governed guarantee. There are no negative pledge or other covenants or events of default in relation to, or undertaken by, NATIXIS under the Notes or the NATIXIS Guarantee.
		The key risks regarding the market generally include: • The Notes when issued have no established trading market and one may never develop. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. • The trading market for debt securities may be volatile and may be adversely impacted by many events. • Following the United Kingdom's vote to leave the European Union there are a number of uncertainties in connection with the future of the UK and its relationship with the European Union. • As a result of fluctuations in exchange rates or the imposition of exchange controls, investors may receive less interest or principal than expected, or no interest or principal. • Any credit ratings that may be assigned to the Notes may not reflect the potential impact of all risks related to, *inter alia*, the structure of the relevant issue, the relevant market for the Notes and other factors that may affect the value of the notes

		• Legal investment considerations may restrict certain investments; investors and financial institutions should consult their legal and/or financial advisors and/or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. • Holders of Notes may not receive definitive Notes in certain circumstances and may need to purchase a principal amount of Notes such that it holds an amount equal to one or more Denominations in order to receive definitive Notes. Investors may lose the value of their entire investment or part of it, as the case may be. (only applicable for Element D.6)
